TECHNICAL PROJECTS

Venue Review | *Full-Stack* | github.com/C-Meehan/VenueReview
Stadium review website allowing users to rate and review stadiums they've visited or plan on visiting.

- Strengthened user security for application by implementing Bcrypt and validations to user login and registration.
- Integrated MaterialUI into rating system and stadium info cards to establish uniformity for the user experience.
- Implemented a cloud database using MongoDB Atlas to create seamless transition of data from local storage to deployment.

Candy Shop | *Front-End* | github.com/C-Meehan/candy_shop
E-commerce website that allows users to purchase candy from our virtual store. Purchases are for demo use only.

- Implemented administration login and registration using Bcrypt and JWT's to successfully create and track admin users.
- Conceptualized front-end design for the administration side of the application using React to create a visually pleasing administration experience.
- Designed the create and edit forms using React providing administration the ability to alter products for sale.

PROFESSIONAL EXPERIENCE

Courier | *Postmates* | WA, AZ, WY   2019-2021

- Ensured customer satisfaction by guaranteeing accuracy in all orders prior to delivery.
- Properly manage multiple concurrent orders including pick up and delivery of food to customers in an efficient and expected manner.
- Utilized automated system for tracking accountable orders, locating addresses and appropriate personnel offices ensuring accuracy and increasing operational efficiency.

Detention Deputy | *Hillsborough County Sheriff's Office* | Tampa, FL   2015-2019

- Field Training Officer - Tasked with training newly hired Deputies in all aspects within the detention facility.
- Responsible for care, custody, and control of inmates at a 72:1 ratio. Successfully completed daily tasks including sending inmates to various vocational and work programs while completing reports in a timely manner.
- High Liability assignments included - Booking/Intake, Confinement, Fire Safety and Sanitation Officer, Acting Corporal.
- Accurately used software for tracking inmate movement to and from various assignments within the facility.
